

Mitaliben H
Naranpura,
Ahmedabad.

My name is Mitali and I am 38 yrs old. Due to heavy periods since long time I developed **Anaemia**. I could not do my routine house work. Even I could not walk. Continuously I had to take rest in between. I have tried lot of medicines for my anaemic condition but I did not get satisfactory result. Then one of my relative recommended me Wellness Noni. Within a week I started to feel better. After taking Wellness Noni for 3 months. Now I am feeling very much energetic and can do my routine work comfortably. My hemoglobin is now increased, I am too much happy now.

I recommend all to take Wellness Noni, especially to all women who have so many problems in life. With the help of Wellness Noni they can become more efficient.
