

Mrs. Bharti Magnani  
Juna wadaj  
Ahmedabad

I have been suffering from **severe pain in the left hand since 10 yrs.** also I had **skin allergy problem.** I had some **skin related problem** and was I completely bugged up of mine disorder and always wanted to eradicate such things from my life. Even I was not able to attend social function too. Also my son Ajay has **used to wet the bed at night** [same urine problem] I had to wake up daily night to watch whether everything is fine or not and my other two children were also suffering from **body weakness.**

From last two months I started consuming Wellness Noni and my whole family did the same thing, within a weak I found, it is miraculous. I mean it was fantastic. I did not aspect that much result in a short period. 90 percent I found it cured and also it helped me in curing my **skin problems** too. Now my husband is also feeling great and doing great in his life. Now he is not feeling such restlessness and any pain in chest life is going great. The main important thing is my son Ajay is completely cured and not doing such sheets on the bad. Also he is paying **excellent attention with good concentration** in his studies. Akshay and Nikita both **have recouped from their weakness.**

I am thankful to Moneta group who has made such wonderful discovery and my benedictions are with Moneta wellness Noni.
