I, Nitin Soni, was suffering from **Hyper Acidity, burning sensation in chest and abdomen**. Because of this I was not able to **concentrate** on my daily office work. To come out from these disease/problems I have consulted many doctors and tried various types of medicines, but problems remains the same. I came to know about Wellness Noni from one of my clients.

I started Wellness Noni and within 2 to 3 days I felt better and after 2-3 weeks my problem of hyper acidity completely solved.
