My name is Vishnubhai and I am living in Kutiyana village and I am worshiper in Temple. One day it happened to go out for some work. I was injured by some foreign body in my leg. At that time I did not kept any attention on the injured part. There was a Pus formation due to infection and it converted into Gangrene. I went to Jamnagar for the treatment and it was diagnosed as a Cancer. Doctor told me to be admitted in the hospital and he told that we have to cut your leg. I was afraid too much and came back to my village. There I came into contact with Dr. Nutanben. She gave me an Ayurvedic medicine and she told by this medicine you will be cured. I started to consume Wellness Noni, within few days infection of Gangrene decreased. Pus formation also stopped. Nearly in one month of time I become all right completely by the use of Wellness Noni. The scar of my leg diminished, my leg became normal and alright like before.

I am thankful to Dr. Nutanben and also thankful to those who made miraculous Ayurvedic Wellness Noni and due to them I am saved from cutting of my leg.

Dear friends,

I had a **lump in throat**, which was increase up to 11.5 cm during last 8 to 9 years. It was looking ornamental. I was **feeling weakness** and other **physical problems** too. However I contacted my family doctor and he suggested me to go for FNAC immediately.

“Shocking” One of the most reputed pathologist of mumbai diagnosed it **as metastasis papillary carcinoma consistent with primary origin in thyroid.**

I was advised to take rest and to stop my daily routine by cancer specialist.

Having deep faith in Ayurveda, I contacted DR. Joban Modha, Ayurveda cancer specialist from Ahmedabad, who send me the exclusive formulation Moneta wellness Noni and 2 types of tablets by courier.

Wonders!!! The medicines started working from the day one “ all my complaints started disappear, after one month I stood with the 3.5 cm of lump, which has decreased up to 1.5 cm now. My **all physical problems** have gone now and I am able to work up to 15 to 16 hours a day now.

I am highly thankful to doctors of Wellness team and their medicine- Wellness Noni. May God give doctors strength to achieve the greatest heights in the treatment of cancer with same efficacy.
