

Jayaben Gokulbhai
Akhbar nagar,
Ahmedabad.

My name is Jayaben and I am 56 years old. Since last 4 years I was having **low back pain** and also both **knee joints pain**. I was having **difficulty in sitting and walking** and also sometimes I could not get up freely. While stepping up the stairs case I was forced to sit on the way for 2-3 times. I was not able to do my routine work nicely. For my problems I took so many medicines but did not get any benefits. One day my husband brought me one Wellness Noni, and after making use of Wellness Noni for few days there was improvement in my pain and slowly and gradually pain reduced. In my right leg there was a Calcanium Spur. Due to that I was having too much pain while walking and for this I took Steroid Injection for long time. In that also I got relief.

After consuming Wellness Noni for 3 to 4 months I got relief nearly 90%. I feel that my pain is disappeared. I can do my routine work nicely.

Thanks to Wellness Noni.
