

Kalpna Niranjana Solanki
Isanpur,
Ahmedabad

My name is Kalpana Solanki. My age is 30 yrs. Since long time I had a mild fever. I consulted my physician and he told to do investigation for the blood. I did that but all the reports were normal. In many places I took treatment. Whenever I was under treatment I was ok and whenever I stop it again I used to get fever. For this I was harassed like anything. And due to that I had a weakness too much. My husband was cured from his abdomen problem which was very old. He used Wellness Noni. He advised me to use Wellness Noni for my problem. So I started making use of Wellness Noni. My fever subsided after the use of Wellness Noni for one week, my weakness also became less. Now I am completely feeling healthy. I can do my house work comfortably. This is all due to the blessings of Wellness Noni.

Thanks to Wellness Noni
