

Ritesh Jhala

My name is Ritesh Jhala and my age is 33 yrs. I am a videographer. For video graphy I have to go out of Ahmedabad often. Whenever I go for videography I have to stand whole day and forced to work.

Since last few days of the time whenever I go for videography I started to feel like **tiredness** in my body. I was feeling too **much sleep** continuously and not to do any other activity. I consulted my family doctor; he gave me medicine but could not get any benefit. During that time my friend advised me to use Wellness Noni. I started consuming it and within few days I found improvement and whatever tiredness I was having got disappeared. Now I can perform my work efficiently and actively. If there are two orders for me together I can finish easily that much I am sure. My life has been changed by the use of Wellness Noni.
