

Dr. Ashok Garg
31 yrs
Barkat nagar,
Jaipur.

I had been suffering from **cold and cough** on the changes of weather now and then. Also I was an **underweight**. One of my good friend recommended Wellness Noni to me. He asked me to take Wellness Noni every morning and evening 10 ml and after few days I have been told to take 15 ml accordingly.

What I found is **visibly miracle**. I **gained my weight up to 1 kg** also my **cough and cold** complaint got vanished, no **constipation problem** anymore. Now I think I am working with full **efficiency and with full determination**. I also found visible changes in my body. There is **no more tiredness** in my body, feeling great.

Thanks to doctors team.

Tejas.V. Raval
Ahmedabad.

My name is Tejas Raval. From last so many years I was suffering from **cold and sinusitis**. Often I was having attack of cold; I was suffering from **running nose**. At the time of sleeping I could not **breathe** because of **blockade of both nostrils**. Always I used to **sneeze**, always **headache** with me and we consulted so many specialist doctors but could not get any relief. I was fed up like anything. One day I came into contact with Dr. Dinesh and I expressed him all my problems and he told me to take Wellness Noni. According to his suggestion for the dose I started to take Wellness Noni and within 7 to 8 days I found relief. Now I am completely out of my cold problems and that also use of Wellness Noni for only 2 months.

I am very very Thankful to Wellness Noni.
