

**Rashiklal Somnath Panchal**  
**Shaibaug,**  
**Ahmedabad.**

My name is Rasiklal and my age is 67 years. Due to some business related work I have been staying in Kutch for business purpose. Earlier I had been suffering from **Diabetes**. My **Diabetes** ranking between 200-240-280-300 and was been increasing day by day. I was being lazy in my work as well.

One day I came to know about Wellness Noni through news papers like Times of India , Gujarat Samachar, and Divya Bhaskar. Then after I started consuming Wellness Noni and slowly and gradually my Diabetes got in control. After 15 to 20 days I went for Sugar checking and I found really a surprise result and it was excellent and now my diabetes ranking after having meal is 105 to 110. Whatever problem I had earlier related to health and body is now getting well day by day.

Today I am feeling as if I am very young and my age is just 45. This feeling is so nice being young at the age of 67 sounds good. Now I am not feeling tired, no matter whatever the work load is. Days are getting shorter.

My wife also had so many problems like headaque, joints pain, and back pain and now after consuming Wellness Noni she has also received good and tremendous result.

Wellness Noni is really a grace of life.

I am thankful to the entire Moneta wellness group for giving us healthy life and more desires.
