

**Vishnubhai
Kutiyana
Rajkot.**

My name is Vishnubhai and I am living in Kutiyana village and I am worshiper in Temple. One day it happened to go out for some work. I was injured by some foreign body in my leg. At that time I did not kept any attention on the injured part. There was a Pus formation due to infection and it converted into Gangrene. I went to Jamnagar for the treatment and it was diagnosed as a Cancer. Doctor told me to be admitted in the hospital and he told that we have to cut your leg. I was afraid too much and came back to my village. There I came into contact with Dr. Nutanben. She gave me an Ayurvedic medicine and she told by this medicine you will be cured. I started to consume Wellness Noni, within few days infection of Gangrene decreased. Pus formation also stopped. Nearly in one month of time I become all right completely by the use of Wellness Noni. The scar of my leg diminished, my leg became normal and alright like before.

I am thankful to Dr. Nutanben and also thankful to those who made miraculous Ayurvedic Wellness Noni and due to them I am saved from cutting of my leg.
