Abohar, Dist: Firozpur,
Punjab

Since three years I had a **problem of Diabetes** and with that I **had blood pressure** problem too. I was feeling tired and my **heart** used to tremble when I happened to walk. My son Amarjeet once told me to consume Wellness Noni, as per his suggestion and putting faith in Wellness Noni I started consuming it. Within few days I have found a good change in my blood sugar as well and also in my blood pressure. Now I am sure that I will be fine.

Thanks a lot.
