

Harbans Kaur
Gonnana, Dist: Muktasar,
Punjab.

I had a heart attack on 17-10-2007. After that I had an attack of **Paralysis**. My heart was not working properly (only 50 %) and due to this problem I was not able to move or walk properly. Even my **eyes were** not opened properly. At the same time I was not able to talk and speak properly. I had to take support of two women and had to ask them to help me in eating and moving as well. One day one of my relative Mr. Amrjeet had given Wellness Noni to me and also he gave me proper guideline for usage of Wellness Noni. According to his guideline I followed it properly. Within 15 days I felt so much improvement in my problems And now after two months I am completely fine and feeling better than before. Wellness Noni has truly given me a new life.

Thanks a lot.

Maniben Laljibhai
Bhanavav chawk,
Junagadh.

My name is Maniben Laljibhai. I am 65 years old. Nearly 7-8 month before, there were **small boils filled with liquid** and I was having too **much pain**. I consulted Doctor; he diagnosed it as **Herpes**. After that he prescribed me some medicines and also ointment to apply on it. After having treatment for some time that boils subsided, but pain did not go. After that I was forced to take pain killer medicine. But as soon as I stopped medicines immediately pain started occurring. Due to pain killer I developed acidity. Meanwhile my elder son brought me Wellness Noni and I started consuming it. Within a month slowly and gradually my **pain** disappeared completely. Now I need not to intake any kind of pain killer, and I am completely free from my acidity problem.

Thanks to Wellness Noni
