

**Kotecha  
Junagadh**

My name is Kotecha. Since last many years I have skin disease [psoriasis]. Due to that on my head, forehead, and on my face I developed scaling and too much itching, some time there is a bleeding also. I have consulted many skin specialists and took so many medicines but all were in vein and no benefit. I had been to foreign country for the treatment of my disease but I did not get any improvement. One day my elder brother brought me Wellness Noni. And told this is an Ayurvedic medicine and it is very effective. I started to consume Wellness Noni in the morning and in the evening. I started getting benefits slowly. After few days the problem of scaling and itching stopped. The black spot on the skin which occurred before started to decrease. My skin started to become cleared. I got very good result.

I hope that after few days of using Wellness Noni I will be completely alright.

Thanks to Wellness Noni.
