My name is Yogesh Bhai Parmar. I am connected to Printing Business. In my business I have to do physical work and some time workload also heavy. Earlier I got **weakness in my upper limb and lower limb**. My both Knees were started to get **pain** also. I consulted to the Doctor and he told me that you have a **weakness of nerves**. And due to that you developed **Arthritis** so you are getting **pain in your Knees**. I took medicines for long time according to his prescription. But whenever I take medicine for some time I was getting relief. And I stop medicine immediately again there was a pain. One day one of my clients brought me Wellness Noni. I started to consume it. Surprisingly my weakness got disappeared at short point of time. Gradually and slowly Knee Joints pain also decreased. After consuming Wellness Noni for three months, I am absolutely fit and fine and nerve weakness also gone, Knee Joints pain also got vanished.
