

Aashish Pravinchandra Shah

My name is Aashish Shah. I belong to kathlal. I met with an accident last one and half year back and got injured in my leg. Due to accident I was having pain with my left ankle joint. I took medicines but could not get any relief. Some of my friends suggested me to take Wellness Noni I started taking it, within 15 days I got surprised 50% result in my pain. Now a days I am using and my father is also using for his blood pressure and asthma. Since 6 months my father is using Wellness Noni and now everything is under control. In asthma he is having improvement. In asthma I am not getting 100% result but I can say if want to climb mount girnar I can climb easily, that much strength I got. Now a day's my father is also moving freely and can go anywhere without any problem. Earlier during night he was having asthmatic problem more and we must be present at least 4 people to look after him.

So I can say now he doesn't have such kind of problems. It is almost come down to zero percent that much I can say.

He is having little cough problem but I am sure that will also be fine shortly. Wellness Noni contains many types of effective and natural elements which is helpful in diabetes and other problems.

Some of my friend's father was having diabetes and was taking Wellness Noni doctor himself told to stop insulin and tablets for diabetes.

I am getting such satisfactory result from my friends and other's and now a day I am regularly drinking Wellness Noni and suggesting others as well to drink Wellness Noni regularly.

If you see properly you will find so many benefits of taking Wellness Noni. We are benefited and our friend circle is benefited. I am suggesting to the person in today's date whomsoever suffering from bypass surgery, heart problem or any major problems by using Wellness Noni money is saved.

By trusting Wellness Noni you will have uncountable benefits it became like a life saver. It started working like Ramayana Sanjeevani.

Thanks.

Jayaben Gokulbhai
Akhbar nagar,
Ahmedabad.

My name is Jayaben and I am 56 years old. Since last 4 years I was having **low back pain** and also both **knee joints pain**. I was having **difficulty in sitting and walking** and also sometimes I could not get up freely. While stepping up the stairs case I was forced to sit on the way for 2-3 times. I was not able to do my routine work nicely. For my problems I took so many medicines but did not get any benefits. One day my husband brought me one Wellness Noni, and after making use of Wellness Noni for few days there was improvement in my pain and slowly and gradually pain reduced. In my right leg there was a Calcanium Spur. Due to that I was having too much pain while walking and for this I took Steroid Injection for long time. In that also I got relief.

After consuming Wellness Noni for 3 to 4 months I got relief nearly 90%. I feel that my pain is disappeared. I can do my routine work nicely.

Thanks to Wellness Noni.
