

Yogesh Shah
C.G.Road,
Ahmedabad.

I am Yogesh Shah, age 36 yrs. Due to bad company I used to take alcohol. I had started with a 1 or 2 pag, but then after the quantity was increased. Because of the regular consumption I had some trouble in **digestion**; I had also some liver trouble. I felt always like nausea and vomiting. I could not concentrate on my work also. I felt always lazy and drowsy. My sleep was also disturbed. One day one of my friends brought me Wellness Noni. He explained the benefits of it. I started to take Wellness Noni with little confusion. But after 5 to 6 days it had started to work. My digestion has been improved. There was no nausea or vomiting afterwards. The efficiency of my work has been improved. I feel always fresh and energetic. My life has been changed now.

Many Many Thanks to Wellness Noni.
