

Deepika Vaidya

My name is Dipika Atul Vaidya. I was having high blood pressure. It was round about 196/110. Then my husband brought me Wellness Noni then he said you drink this I started drinking due to Wellness Noni my blood pressure is 160 earlier when it was increasing at that time I was having Oedema in my both legs and hands. Almost it was appearing like a frog. Now it is appearing completely normal. I am benefited too much and in my right breast there was a small lump which one is decreased like anything. Almost subsided and due to consuming wellness noni I am benefited like anything. Thanks a lot
