I am Smith, 35 yrs old. I have a problem of chronic **pharyngitis** since two yrs. I could not take any cold stuff. My voice was always somewhat with **horseness**. Throat pain was severe. I have tried so many medicines and often visited surgery. But not improved satisfactorily. One day I was on the net and I have seen a website of Wellness Noni. I purchased and started to take it. Within a week I got some relief. I continued to drink it and after one month I got complete relief from my chronic pharyngitis. For the prevention of other problems I want to continue Wellness Noni.

Thanks to Wellness Noni
