

Prem Devi,
Jaipur.

My name is Prem Devi and my age is 51 years. I had a homeopathic treatment earlier as I had been suffering from **cholelithiasis and kidney problem**.

When I started my homeopathic treatment the size of the mass in pancreas was 77mm* 29.3mm* 41.9mm mass seen on dated 9-10-07 after that it was 65.2 mm* 26.4 mm* 38.6 mm mass seen.

Now by the time I started Wellness Noni. Now the size of **my tumor mass** on 5-2-08 is 65.2* 26.4* 38.6. It was really an **unexpected change**. I have never thought that I would be fine one day and would get satisfactory results. I had a bad time earlier but now I am feeling physically fit and fine.

Wellness Noni has **truly helped me and it does worth** a lot.
Thanks a lot.
